Graphic Design

Personal

Enthusiastic and driven entry level web developer who is able to create beautiful and professional websites using front end web development technologies. Passionate about learning and researching new web development technologies and graphic design techniques. I am able to work well in team environments and deliver assignments on time. I am looking for an entry level web development position where I can work hard, learn to become a full stack web developer, and create impressive and engaging websites of the highest standard.

Education

Colorado Technical University

Bachelors of Information Technology with a focus in Web Development

Skills

Front End:
HTML5, CSS3, Sass, JavaScript, jQuery.
Version Control:
Git, GitHub
Graphic Design:
Adobe Illustrator
